T & T SEEDS 1950

SEED DIGEST

Grand Forks, NORTH DAKOTA

U.S.A. Headquarters

Copyright, 1950

**"IN THE NORTH WE NEED THE BEST
T & T SEEDS HAVE STOOD THE TEST"**

PLANTING INSTRUCTIONS —NOT PRETTY PICTURES

From T & T you buy seeds not expensive glossy colored pictures. Every T & T packet has detailed, expert planting instructions. Written by experienced plant Scientists for Northern Conditions. Your practical guide to gardening success.

T & T Office at Grand Forks will handle the rush for T & T Northern Improved Seeds. T & T combine Quality and Value. T & T Northern Improved Seed in the Big Oversize Brown and Gold Packets is your Best Value.

In this new T & T Digest we again offer highest quality at lowest prices. Many Seed Houses pay 25-50c or even \$1.00 for their big, coloured glossy catalogues.

We've so economized on Printing and Distribution that we can offer you our Standard big Oversize packets as low as 4c. There is nothing cheap about T & T Seeds but cheap (economical) distribution, and this saving we pass along to you.

|| New Exclusive T & T Early Vegetables Plus New Flowers-Glads-Hardy Perennials

Amazing progress is being made in Breeding Vegetables, Flowers and Fruits for our Northern short season summers; no longer do we have to import our varieties from Europe or Southern and Central U.S.A. Our Plant Breeders are developing Tailor Made varieties for Northern Gardens.

As we develop short season varieties to take advantage of our richer Northern soils, longer more intense hours of sunshine and more rapid growth, we obtain greatly improved flavor, quality, mineral and vitamin content.

T & T has pioneered in this development. We know that when you grow these new exclusive T & T releases you'll be as proud of them as we are at T & T. Your garden is sure to be the talk of the neighborhood if you plant exclusive T & T varieties.

1. T & T Seed is Northern Improved. Bred here in the North it is the best seed science and money can produce.
2. T & T Seed is new crop dated, tested for purity and vigor. Our Vegetable packets carry control Certificate Test Number.
3. T & T Packets are really generous oversize. In many cases contain 2 to 5 times as much seed.
4. The T & T Seed Digest contains only the earliest, most outstanding varieties, so they will be first and finest in your garden.

Every Year Thousands More Change To T & T Because T & T Satisfied Customers are Everywhere

If you are an old Friend of T & T we don't have to go into detail again as to why T & T has the Best Earliest Improved varieties — The Biggest Packets, your Best Seed Value. If you haven't tried T & T Seeds the letters and pictures on this page will help explain for us: how hard we're working to improve your garden and how happy T & T customers are.

Please let us know how the new T & T varieties perform for you. Let's all work along together for Earlier, Better Gardens.

"Here's a picture of my children and Columbia Russets from Potato Eyes purchased from you this spring. 'Some Potatoes those Russets,' that's what the neighbors say, so our feelings are mutual. The boy in the middle is my helper; he's the one that gets a packet every year for 1c. His garden was sure nice, he even had watermelon."—Mrs. J. F., North Portal, Sask.

"We are ever so pleased with T & T seeds—they are certainly making our garden the talk of the neighbors. This is a very high altitude to expect to grow a garden in. We planted ours last, and it is the best garden in the Valley. People going by ask what do you do to make your garden grow so big and fast? I just tell them next time to buy T & T seeds and their gardens will be good too."—Mrs. J. T., Robb, Alta.

"Cukes in snap are from 2 packets of your seed. I have tried many seeds for 16 years, and I never was so satisfied with any as T & T seeds. You need so little and produce so much."—Mrs. A. H. C., Dubuc, Sask.

"My Tomatoes last year were the best around here. I never saw anything so loaded with fruit and ripen on the vines without pruning, and all my other seeds that I got from you turned out the same way. I can sure recommend T & T seed, for I know by trying them what they are like, so you can look for my order again this year."—Mrs. A. B., Bristol, N.B.

"My grandson has a wonderful garden with his 1c packet, and we all got a big kick out of watching it grow."—A. A. P., Abbotsford, B.C.

Here's a T & T garden the whole family can be proud of.

"This snap of my T & T Sweet Peas will prove what wonderful bloom I had."—Mrs. J. C. L., Rimbey, Alta.

"I had some New Canus Potato Eyes from T & T last spring, and I must say they are the finest Potatoes I've ever seen or grown. They are as solid now—the end of March, also as fresh as the day I put them in the cellar last fall. They are beautiful cookers, eaters and keepers and suit the short summer of this North country fine."—A. C. O., Timmins, Ont.

"In spite of a very dry summer here my 45 plants of T & T Bounty yielded about 500 pounds of Tomatoes. Note loaded plant on chair."—Mrs. B. O., Rose Valley, Sask.

"It seems that every seed germinated. We transplanted 800 Onions from one packet. The Onions grew to an enormous size and were still growing when it was time to dig them. The Carrots came up well and thick, and were delicious to eat."—Mrs. V., Fisher Branch, Man.

"Last year I had a good show from all your T & T seeds with Beans, Peas, Beets and Lettuces very good indeed."—W. F., London N.W. 10, England.

"This is Rudgie with some of his very own vegetables. His garden was a surprise and a delight from beginning to end."—Mrs. J. N., Bredenbury, Sask.

"We have had Muskmelons for the first time that I can remember. Our soil is heavy loam, and things like that do not mature quickly. We have never had as nice Carrots until we sent to T & T."—L. M., Goderich, Ont.

"The T & T seeds purchased by me last year were by far the best I ever planted, and this year my order will be doubled."—G. W. F., Preston, N.S.

Mrs. L. E. Lees, Howardson, Sask., sent in this snap of her lovely family showing off their T & T garden

SOY BEANS

191. Early Blackeye (New)

Best and earliest edible Soybean. Developed by T. F. Ritchie, Dominion Experimental Farm, Ottawa. Wonder plant of Orient for high Protein food value. Delicious shelled and cooked green like Lima Beans, or dried for winter baking. Postpaid, oversize packet (1 oz.) **only — Scarce — No bulk Seed.**

9c. Packets

BEETS

1 oz. sows 50 feet of row

SPECIAL DELIVERED PRICES

Oversize pkt. (¼ oz.) **5c**; 1 oz. **16c**; ¼ lb. **48c**; ½ lb. **78c**; 1 lb. and over **\$1.48**.

200. Detroit Perfected

Here's intense red flesh, uniformity and flavour developed by generations of breeding from original Detroit strains. With cool growth and ample moisture produces exceptional crops. Tall foliage, excellent for early season greens. The crown is small in this beet. **Spec'l prices start of Beets.**

205. Short Top Detroit

Here's the perfection of flesh color and flavor of Detroit refined by skilful breeding to produce a small top, narrow necked beet. Beautifully uniform, dainty round beets are tops for canning and pickling. Choice Postpaid oversize pkt. (¼ oz.) **9c**; 1 oz. **26c**; ¼ lb. **69c**; ½ lb. **\$1.12**; 1 lb. and over **\$1.78**.

210. Detroit Dark

Most popular, all purpose beet, for early garden or storage use, market gardening, shipping and canning. Does well on all types of soil. Deep red flesh, indistinct zones, clean crowns. Flavour best when 2½" across. Our T & T special strain from selected mother beets. **See special prices at start of Beets.**

220. Good For All

Dual purpose beet for early greens or general root uses. Has a bright and lively red root color, most desirable for canning purposes. Crown or neck is small. Yields well seeded early and mid-summer. T & T special strain from selected mother beets. **See special prices at start of Beets.**

New T & T Vegetable Seed Mill. 305 feet wide. It cleans 120,000 lbs. of Vegetable Seed in 8 hours. Skilled plant Scientists Breed and Develop, Produce and Process T & T Seed in the North for assured success in Northern Gardens.

SWISS CHARD

Cut and come again greens. Tops cook like Spinach, stems like Celery or Asparagus. 1 oz. sows 50 ft. of row

250. Giant Lucullus

Earliest chard 50 days to maturity. Light green foliage with large crisp thick pure white stems. Leaves are crumpled like Bloomsdale spinach. Does not go to seed readily and thus can be used for an extended period. Excellent for home canning. **See special prices start of Beets.**

260. Fordhook Giant

Recent introduction. Extremely vigorous and blocky, with thick crumpled dark green leaves of fine quality. Wide crisp stems. Does well on all types of soils. 57 days to maturity, if cut will come again. **See special prices start of Beets.**

BROCCOLI

If you like Cauliflower, try this easy grower Handle like Cabbage or Cauliflower

270. Early Green Sprouting

Earliest and best broccoli for the northern districts. Large heads of deep green, tender sprouts. Cooked like cauliflower though milder flavor. Seasoned with butter and salt—a delicacy that all gardeners should try. Delivered prices—Oversize pkt. (1/16 oz.) **6c**; 1 oz. **33c**.

BRUSSELS SPROUTS

Tender Buds—Old Country Favorite

290. Dwarf Perfection

Our Test Plots prove this as earliest, most drought resistant type. Cook tender buds like cabbage. 75-100 buds 1" across per stalk. Hardier than cabbage. Delivered prices—Oversize pkt., (1/16 oz.) **6c**; 1 oz. **49c**.

Beets for Cattle—See Mangels 1000.
Beets for Sugar-syrup—See No. 1050.

Thin Head Lettuce early, 6-8" apart. Careful, shallow cultivation with Dutch hoe protects delicate feeder roots close to soil surface.

Tomato Plants under Hot Caps are double size of those out in cold spring winds.

T & T Bush Tomatoes lead in size and earliness. New Egg Plant, T & T Black Bountiful, will replace all others for Northern Gardens.

CABBAGE—Early

Pkt. sows 50 ft. of row.

SPECIAL DELIVERED PRICES

Each variety unless otherwise quoted:

Oversize pkt. ($\frac{1}{8}$ oz.) 6c; 1 oz. 35c; $\frac{1}{4}$ lb. \$1.05; $\frac{1}{2}$ lb. \$1.88; 1 lb. and over \$3.38 per lb.

310. Early Vienna (New)

Heads non-splitting. Absolutely the best early cabbage for home or market gardens. Most drought resistant of all. Tops for the prairies. The crispness and firmness of these round heads will amaze you. **Sorry—no seed this year.**

320. Early Jersey Wakefield

This improved strain is the finest early ox-heart type in existence. Produces uniform, pointed, solid, well-flavored heads. The leaves are medium thin and of fine quality. This type is sweeter and more tender than the round-headed kinds. Be sure to try this special strain in the garden this year. **See special prices start of Cabbage.**

330. Golden Acre

Round-headed type of early cabbage, a market garden favorite. Early as Jersey Wakefield. Heads average 3 lbs. Fine grained, well flavored. Developed from Early Copenhagen types. **See special prices start of Cabbage.**

CABBAGE—Midseason

340. Copenhagen Market

Best mid-season market variety. Excellent quality, average heads about 4 lbs. with small core. Plant stem is short, leaves compact, allows for thick planting. About a week later than Golden Acre. **See special prices start of Cabbage.**

345. Einkuizen Glory

Tops for Kraut because of its extra sweetness and crispness. A heavy yielding mid-season cabbage can be sown late for fall storage. Large heads about 8 inches across. Weight 6 lbs. Few outer leaves. **Special prices start of cabbage.**

CABBAGE—Late

350. Danish Ballhead

An excellent winter keeper, widely adapted. Heads are round, solid and large. Seed in open at potato-planting time to produce a bumper crop for storage. Ideal for kraut. **See special prices start of Cabbage.**

360. Penn State Ballhead

Most uniform late cabbage. This special strain is most prolific. Alike in size, shape and color. Heads hard and heavy. One of the few varieties that is solid when small and remains so all season. **See special prices start of Cabbage.**

382. Red Acre (New Early)

Letters continue to pour in praising T & T strain Red Acre as one of the finest of all Cabbages. Here is the earliness and reliability of Golden Acre combined with a rich red color. Exceptional quality of Red Cabbages. Excellent for pickling. Shy

seeder — Scarce. Postpaid, oversize package ($\frac{1}{8}$ oz.) 9c; 1 oz. 58c; $\frac{1}{4}$ lb. \$1.88; $\frac{1}{2}$ lb. \$3.38.

390. Chinese—Chihili

Easy grower; can be sown outside; for finest salads ever. Not a freak—its flavor combines the best of lettuce, celery, cabbage. Best sown outdoors in June or July—its growth will amaze you. Keeps better than head lettuce. **See special prices start of Cabbage.**

"Last year I grew some Red Acre Cabbage from T & T seeds, and I never saw anything like them. I kept some of them all winter until just recently and they were as firm and as sweet flavored as at harvest time."—O. W., Moncton, N.B.

CARROTS

1 oz. seeds 250 ft. of row.

High in vitamins. Selected for sweetness.

SPECIAL DELIVERED PRICES

Each variety, unless otherwise quoted:

Pkt. ($\frac{1}{4}$ oz.) **5c**; 1 oz. **18c**; $\frac{1}{4}$ lb. **64c**; $\frac{1}{2}$ lb. **\$1.14**; 1 lb. **\$2.14**.

420. Red Cored Chantenay

Outstanding favorite. Orange-red color extends clear to the centre. Flesh fine grained, sweet. Easily pulled on heavy soils. $2\frac{1}{4}$ " thick, 6" long. Keeps well if stored in peat moss. Its sugar content has been recorded as high as 7.2%. Plant generously; store ample quantities for next winter. **Special prices start of Carrots.**

430. Danvers Half Long

Supreme Strain

Favorite main-crop carrot. Produces heavy yields on all soils. Tops heavy, for easy pulling. Our strain smooth rooted, $1\frac{3}{4}$ " thick, $6\frac{1}{2}$ " long, blunt point. Flesh sweet, crisp and tender, unexcelled for table or storage. **Special prices start of Carrots.**

440. Nantes Coreless

Early, handsome favorite. Orange scarlet, $1\frac{1}{2}$ " thick cylindrical, 7" roots. Delicate flavor, tender and coreless. Home garden favorite, tops small, allows for close planting. It actually measures as high as 7.8% sugar content. It is also high in Vitamin A, the important vitamin for growing children. **Special prices start of Carrots.**

CAULIFLOWER

1 pkt. produces over 150 plants.

Strains Northern Proven—Uniformly choice. Shortage is over. If you pay more than T & T prices it's too much.

SPECIAL DELIVERED PRICES

Each variety, unless otherwise quoted:

Pkt. ($\frac{1}{16}$ oz.) **11c**; $\frac{1}{4}$ oz. **42c**; 1 oz. **\$1.52**; $\frac{1}{4}$ lb. **\$5.68**; $\frac{1}{2}$ lb. **\$9.98**.

460. Early Snowball "A"

Best early Snowball strain we have ever tested of this most widely used variety. Dependable, produces closest to 100% solid, pure white, finest quality heads. Excellent shipper. **Special prices start of Cauliflower.**

"The Penny Package of Seeds is giving my little boy, who is ailing, a lot of pleasure. After sorting his seeds and planting the Tomato and a few others, he had the satisfaction of seeing his plants beat Mom's coming up, and one unknown, or as he called it, Mr. X., is sure to be a climber, it has grown 5" over the weekend. Now, isn't that something for a 10 year old sick kid to crow about."

Mrs. E. K., Pinewood, Ont.

CAULIFLOWER—Green

470. Snowball "X"

Special early strain of Snowball. Excellent, medium size 2 lb. heads. Ready nearly a week earlier. Use this for several plantings in season. **Special prices start of Cauliflower.**

475. Erfurt Improved

Heads hard and compact. Leaves long to shade and self-blanch. Ready after Snowball X. Gives longest season of cutting, therefore, home and market garden favorite. **Special prices start of Cauliflower.**

CELERY

Don't chill or dry seedlings. It causes bolting.

SPECIAL DELIVERED PRICES

Each variety, unless otherwise quoted.

Pkt. ($\frac{1}{16}$ oz.) **6c**; $\frac{1}{2}$ oz. **38c**; 1 oz. **68c**; $\frac{1}{4}$ lb. **\$1.98**.

500. Cornell No. 19 (New)

New, outstanding. From Minneapolis north and west this is best blanching, celery for home or market gardener. For uniformity, non-bolting, size and crispness, you should try it. Postpaid. Over-size pkt. ($\frac{1}{16}$ oz.) **9c**; $\frac{1}{2}$ oz. **58c**; 1 oz. **\$1.08**.

505. Golden Self Blanching

Popular favorite. Exceptionally fine flavor, crisp, tender and stringless. Early strain, tall. Particularly suited for home gardeners, as it blanches readily. **Special prices start of Celery.**

CELERY—Green

520. Utah, Salt Lake Improved

Our favorite; green celery is higher in vitamins, meaty, stringless and crisp; easiest grown, as they don't require blanching. Earliest and best green home and market garden favorite. **See special prices start of Celery.**

525. Celery Seed

For rheumatism and especially soup flavoring. See packet. Non germinating. Postpaid, oz. **23c**; $\frac{1}{4}$ lb. **59c**.

CHICORY

540. Whitloof (Coffee Sub.)

Grow like parsnips. Slice, dry and roast. Instructions on packet. Postpaid, pkt. ($\frac{1}{8}$ oz.) **6c**.

Charlie Walkoff shows off his Sugar Prince with Golden Midget Sweet Corn.

Jerry Twomey selects Bush Tomatoes.

Improved Mincu Cuke — Exclusive T & T introduction.

Careful hand crossing T & T Cuke strains to produce T & T Hybrid, Page 8.

Stock seed selection Farnorth Muskmelon.

SWEET CORN—Hybrid

1 lb. to 100 hills—per acre sow 10 lbs.

Hybrid Sweet Corns are quickly gaining popularity. Extra hybrid vigor, larger ears, are more uniform, deeperkerneled and sweeter. Plants more drought and wind resistant. They are surprisingly early.

548. Sugar Prince (New)

Original T & T introduction. Developed by C. Walkoff, Morden Exp. Farm, this Hybrid combines the quality of Golden Bantam with the vigor and earliness of Sunshine. 7 years Northern breeding for its deeper color and improved flavor and sweetness make it the heaviest yielding hybrid for prairies. Ready Winnipeg Aug. 7.

Special Hybrid Seed. Postpaid, pkt. (1 oz.) **11c**; 2 pkts. **19c**; ¼ lb. **29c**; ½ lb. **48c**; 1 lb. **87c**.

550. Spancross (Early)

Bred by Dr. Singleton of Conn. for Northern gardens—10-12 rows, tender, very sweet and meaty kernels, filled well to tip. Tested 14% sugar. Ready Winnipeg Aug. 1. Postpaid, oversize pkt. 1 oz. **9c**; ½ lb. **33c**; 1 lb. **55c**.

560. Marcross (Midseason)

Tops as mid-season hybrid for canning and table use—14-16 rows, tender, deep, high quality, golden kernels. Extremely uniform. Ready Winnipeg Aug. 10. Analyzed 14.6% sugar. Very drought-wind resistant. Postpaid oversize pkt. 1 oz. **9c**; ½ lb. **33c**; 1 lb. **55c**.

SWEET CORN

Northern grown—hand rogued—early strains.

SPECIAL DELIVERED PRICES

Each variety, unless otherwise quoted:

Oversize pkt. (1 oz.) **5c**; ¼ lb. **15c**; ½ lb. **24c**; 1 lb. **39c**; 5 lbs. and over **36c** per lb.

590. T & T Golden Midget (New)

New Midget Bush Corn. Grows 2½-3 feet high. A space saver for the small garden. One of the earliest, sweetest, tenderest corn ever introduced. Heavy yield of medium sized ears. Ready Winnipeg July 24. We're proud of this introduction; its real merit is certain to make it a Northern favorite. Don't miss trying. Seed scarce and expensive to produce. Postpaid, oversize pkt. (1 oz.)

11c; 2 pkts. **21c**; ¼ lb. **33c**; ½ lb. **58c**; 1 lb. **98c**; 2 lbs. **\$1.89**. Scarce. Only 2 lbs. per customer.

SWEET CORN—Cont'd

598. T & T Earliest of All (New)

Specially Bred and particularly adapted for Northern Parkland areas of the West. Tests this far show it to be 5 days earlier than Dorinny. Here's the Corn for the North to start the season off with a Bang. Postpaid, oversized pkt. (1 oz.) **9c**. Seed scarce. Pkts. only; no bulk.

600. Golden Bantam (Burbank)

Special reselected T & T strain 1 week earlier than any other Bantam; tested 17.4% sugar. Ready Winnipeg Aug. 16. Large ear size, tops for table or canning. Holds color well after cooking. Amazing sugar yield is credit to Burbank. **Prices start of Corn.**

615. Dorinny

Favorite, very early Sweet Corn for North. Analyzed 16% sugar, as sweet as a Sugar Beet. Developed by Canadian Exp. Farms for northern arctic conditions; matures 3 weeks earlier than Bantam—matures 1500 miles north of the American border. Small core, exceptionally deep kernels, a real find. **Prices start of Corn.**

640. Sunshine

Developed by Prof. Yeager while at North Dakota. 10-14 days earlier than Bantam. The large ears, 12 rowed, 7" long and wonderful flavor, one of the best home garden sweet corn for the western plains. **See special prices start of Sweet Corn.**

POP CORN

666. T. & T. Early Atomic (New)

This exclusive T & T origination is the finest and earliest quality popcorn ever offered Northern gardeners. It combines tender white hull-less kernels of the South American hybrids with amazing earliness. You can now be sure of your own home-grown, big, tender, popcorn. Try it. It'll certainly be a favorite. Scarce. Postpaid, oversize pkt. (1 oz.) **11c**; 2 pkts. **19c**;

¼ lb. **29c**; 1 lb. **87c**.

CRESS—Garden

690. Fine Curled

Earliest, most crinkled, compact, deep green cress grown. Used for garnishing salads, in soups, etc. Postpaid, pkt. (½ oz.) **5c**.

CUCUMBER—Hybrid

700. T & T Hybrid 5A (New)

Again **T & T** leads with First Hybrid Cuke for North. Special **Hand Bred**, First Generation Hybrid Seed, carries the extra vigor for higher yields, disease resistant, better quality, uniform, firm right through. **T & T 5A Hybrid** is a dual cuke for gherkins, dills, pickles and slicing. Backed by years of breeding and selecting by **T & T**, it's good. Hand crossed hybrid seed—50 seeds per packet—Postpaid **21c**.

CUCUMBER—Dual

1 oz. seeds 200 feet of row.

SPECIAL DELIVERED PRICES

Each Variety unless otherwise quoted:

Oversize pkt. (1/8 oz.) **5c**; 1 oz. **20c**; 1/4 lb. **69c**; 1/2 lb. **\$1.18**. Special price 1 lb. and over **\$2.10** per lb.

703. Early Siberian Select Strain No. 27 (New)

Years of breeding and selecting on the prairies have refined Siberian strains to this outstanding introduction. Earliest of all cucumbers. **T & T No. 27** is uniformly the highest yielding, most compact early cuke. Excellent for early dills. Can be sown late in the spring for a good fall crop. Extreme northern gardens can use this sweet slicer when other varieties can't be matured. Special postpaid prices—1/8 oz. **9c**; 1 oz. **34c**; 1/4 lb. **\$1.09**.

710. Earliest Green

An early variety, ready 8-10 days before first bush tomatoes ripen. Fruits blunt. Excellent for dill pickles. Used extensively for slicing. Flesh thick white, skin deep green, a heavy yielder. See special prices start of Cucumbers.

711. Improved Mincu (New)

Exclusive **T & T** introduction. Absolutely best highest yielding, most uniform top quality, early dual-purpose cuke ever offered. **T & T** stock grown from special new foundation seed from Dr. Hutchins, Univ. of Minn. Short vines, compact, amazing yielder. No one else has this improvement. Special postpaid prices—1/8 oz. **9c**; 1 oz. **34c**; 1/4 lb. **\$1.09**.

CUCUMBERS—Slicing

Slicers have white spines.

720. Straight 8

Gold Medallist. The outstanding medium early cucumber to date. Follows early picklers with consistent 8" cylindrical fruit. Just what the market ordered. Flesh is thick, creamy white—flavor is excellent. Special prices start of Cucumbers.

Eight

CUCUMBER—Slicing Cont'd

750. Early Fortune

Excellent table type. Grown extensively by market gardeners. Vigorous, disease resistant—heavy yielder. Crisp flesh. Ready when tomatoes begin to ripen. See special prices start of Cucumbers.

755. Marketer (New)

Try this new one for outstanding flavor and quality. Flesh pearly white, crisp and fine. Beautiful large fruits—ready when most other varieties are past their prime. This earliest of the heavy yielders will be the pride of the neighborhood. Dark green, cylindrical and attractive. Special Postpaid prices pkt. (1/8 oz.) **7c**; 1 oz. **25c**; 1/4 lb. **78c**; 1/2 lb. **\$1.48**; 1 lb. **\$2.40**.

CUCUMBERS—Pickling

775. Yorkstate (New)

This is the best and heaviest yielding Pickling Cucumber we have ever tested here under Northern conditions. It has consistent firmness and uniform size for pickling either for gherkins, dills or pickling. Keep Yorkstate pickled for the biggest yield of pickles you've ever had. Postpaid—oversize pkt. **12c**; 3 pkts. for **30c**.

780. National Pickling

Best for gherkins and small pickles. Developed by Michigan State College. Ideal for gherkins. 5 to 6 days after plants start flowering you'll find 1 1/2-2" cukes. Special prices start of Cucumbers.

785. Boston Pickling

This variety used by pickling companies extensively.

Best for dills. Blunt end type; at 3-3 1/2" makes crispest most flavorful dill pickles. A heavy yielder. Be sure to pickle enough to last the family all fall and winter. Special prices start of Cucumbers.

EGG PLANT

Plant and handle like tomatoes.

805. T&T Early Black Oval (New)

Another **T & T** break. The first really early Egg Plant bred for Northern lands. 10 days to 2 weeks earlier than any other. Wonderful size and quality. This **T & T** beauty takes the risk out of egg plants and is certain to replace all others. Postpaid—oversize pkt. (1/16 oz.) **14c**.

ENDIVE

820. Green Curled

Delicious as a salad or cooked like Spinach. Beautiful green feathery leaves. If tied they blanch to a creamy yellow. Oversize pkt. (1/8 oz.) **5c**

HERBS

Spice of Life. Include some herbs with your order, to add that tasty appetizing flavor that completes a meal. Easy to grow.

DELIVERED PRICES

Each variety. Oversize pkt. 6c.

840-Caraway. Seeds, flavor cake, bread, etc.

842-Dill. Famous flavor for dill pickles.

846-Sage. Favorite in meat-poultry dressing.

847-Summer Savory. For salads, stews and gravies.

KALE

860. Short Green Curled Scotch

Earliest tender kale. Dwarf, green, late fall. Frost improves tasty cabbage flavor. Postpaid, oversize pkt. 4c;

KOHL RABI

870. Triumph of Prague

Our strain mildest flavored. Cook when small, like turnips. Successful in drought when turnips are woody. Plant and handle like cabbage. Postpaid, oversize pkt. (1/8 oz.) 5c; 1 oz. 33c.

LEEKS

880. Giant Musselburgh

Hardest variety for the prairies. Start indoors for fine flavored, pure white, 1 1/2" stalks. Ready when Bantam corn usable. Used in soups, stews, or with a cream sauce. Postpaid, oversize pkt. (1/8 oz.) 8c; 1 oz. 43c.

LETTUCE Loose Leaf

1 oz. sows 300 ft. of row.

SPECIAL DELIVERED PRICES

Each variety, unless otherwise quoted:

Oversize pkt. (1/8 oz.) 4c; 1 oz. 18c; 1/4 lb. 54c; 1/2 lb. 92c; 1 lb. \$1.65.

900. Grand Rapids

Leaves bright green, broad, thin and tender. Attractively frilled. Special prices above.

906. Slobolt (New)

New U.S. Government release. The first break in leaf lettuce in years. This type offers prairie heat and drought resistance by its holding its delightful crisp, sweet flavor much longer than the older leaf lettuce varieties. Doesn't bolt seed stocks and become bitter. Eventually all gardeners will grow Slobolt. Why not try it now? Only one packet to a customer. Postpaid, oversize pkt. 1/16 oz. pkt. 11c.

LETTUCE Head

This is the finest list of Head Lettuce ever offered Canadian Gardeners. Bred and Selected under hot-dry-long day Northern summers. Each variety in its season will amaze you with its high percentage of firm crisp heads. You can now be sure of prime head lettuce from June till September, with these Plant Breeder triumphs.

940. New York No. 12

Here's a select northern strain of this old favorite; reliable header, excellent quality under cool conditions. Heads compact, sweet. Special prices start of Lettuce.

960. Sweetheart (456) Re-selected

New exclusive T & T introduction. This strain was increased from a single outstanding mother plant. Most excellent, consistent, hard headed, very early head lettuce. Widely adaptable. Delivered, Oversized pkt. (1/8 oz.) 9c; 1 oz.

48c; 1/4 lb. \$1.41.

965. Early Great Lakes (New)

IMPROVED STRAIN 428

Ten days earlier than standard Great Lakes. Careful plant breeding under Northern conditions has fixed earliness, yet preserved the tremendous vigor, heat and drought resistance of Great Lakes. Is early consistent producer of solid, long lasting heads. Choice. Delivered, Oversized pkts. (1/8 oz.)

11c; 1 oz. 52c; 1/4 lb. \$1.56; 1 lb. \$4.65.

970. Great Lakes

Outstanding break. Here's head lettuce by which all others will be judged. Leaves heavy as cabbages, yet crisp and tender; amazing. Heads solid as baseballs, even in hottest weather. We're proud of this introduction and the special seed we have of it. Seed scarce. Quality tops.

Delivered, oversized pkt. (1/8 oz.) 8c; oz. 42c; 1/4 lb. \$1.25; 1 lb. \$3.95. Our strain won First Prize, United States Govt. 1947 Trials.

980. Imperial No. 44

Bit earlier than Great Lakes. Consistent header. Resistant to tip burn and slimy heads even in hottest weather. Heads solid, well flavored. Outstanding on our test plots. Spec'l prices start of Lettuce.

"I was amazed at the large amount of seed in every T & T package. The children were pleased with their Kiddies Packet, and I must admit I am just as eager as they are to see what every seed grows to be. You must have known just what would thrill the kiddies. May I say thank you for your efforts to please even the wee gardeners."—Mrs. A. R. C., Holden, Alta.

MANGELS

Cheapest Livestock Feed. Sow 5 lbs. per acre.

SPECIAL DELIVERED PRICES

¼ lb. 23c; ½ lb. 44c; 1 lb. 69c.

1000. Barres Sludstrup

Heavy yielder—long reddish yellow roots that grow ½ above ground make it one of the easiest to harvest. See special prices above.

1020. Half (White) Sugar

Here a mangel—sugar beet hybrid, combining Mangel yields with the high food value of sugar beets. Sticks well out of ground. See special prices above.

SUGAR BEETS

1050. Early Northern

Earliest Sugar beet—make syrup at home—instructions on packet—Sugar content too high for cattlefeed. See special prices start of Mangels.

MUSKMELON

Bred in the North and are really Early
1 oz. sows 100 ft. of Row.

SPECIAL DELIVERED PRICES

Each variety, unless otherwise quoted:

Standard Oversize pkt. (½ oz.) 6c; 1 oz. 19c;
¼ lb. 65c; ½ lb. \$1.17.

1100. Trial Plot Hybrids

Seed collected from the earliest and best quality muskmelons out of the hundreds of strains grown in our breeding work on our trial grounds last season. Here you will find melons of various shapes and sizes—they will all be early. Have fun. Select the earliest, sweetest types for your district. See special prices above.

1105. (Reselected) Farnorth

Muskmelon.

Outstanding, earliest, sweetest muskmelon. On our trial plots tested 14½% sugar almost as high as sugar beets. Flesh firm, rich salmon, pleasant flavour. Extremely early—ripens with Bounty Tomato. Try it. Compact heavy yielding vines. Prices start of

1125. Honey Gold (New)

Ten

T & T introduction with extremely deep, sweet salmon flesh. Size and season between Far North and Early Champlain. Real Quality in a melon. Early enough for any Northern garden. Seed scarce—Only 2 pkts. to a customer. Postpaid pkt. (½ oz.) 9c;

T & T Melons have real quality and earliness. Our plant breeders have refined and re-selected our stock seeds so we can guarantee top quality and uniformity. T & T Melon seed is grown and ripened in Manitoba so we know it's early. There is no late southern seed here.

MUSKMELON—Cont'd

1140. Early Champlain

Splendid early—fine quality muskmelon. Ripens 7 to 10 days after Far North. Oval netted, 5" fruits. Flesh salmon deep and tasty. 13% Sugar. See special prices start of Muskmelon.

WATERMELON

1200. Trial Plot Hybrids

A wide collection of types and colors from our early Breeding experiments. Experiment—choose your favorite. See special prices start of Muskmelon.

1230. Sweet Sensation (New)

Earliest of all Watermelons. Leads the field for size. Bright red flesh, small seeds, outstanding sweetness. T & T have spent years selecting this stock. Seed very scarce. Postpaid oversize pkt. (½ oz.) 12c; 1 oz. 33c; ¼ lb. \$1.09.

1240. Early Canada

This Watermelon ripens just after Bounty Tomatoes. 10" fruits, medium rind, bright red, sweet, juicy flesh. See special prices start of Muskmelon.

1250. Northern Sweet

Early—larger than Early Canada, one week later. Yellow sweet flesh—medium rind—heavy yielder—market gardener favorite. Uniform strain. See special prices start of Muskmelon.

CITRON

1300. Red Seeded

Makes delicious clear preserves or marmalade. Not eaten raw. This strain is earliest and easily grown. For lots of preserves try this. See special prices start of Muskmelon.

OKRA

1330. Dwarf Early Green (Gumbo)

The only Okra for Northern Districts. Delicious in soups. Try it. Postpaid Pkt. 6c;

ONION—Yellow

1 oz. seeds 100 ft. of row.

SPECIAL DELIVERED PRICES

Each variety, unless otherwise quoted:

Oversize pkt. ($\frac{1}{8}$ oz.) 6c; 1 oz. 35c; $\frac{1}{4}$ lb. \$1.17; $\frac{1}{2}$ lb. \$2.13; 1 lb. \$3.60; 5 lbs. and over \$3.20 lb.

1430. Early Y. Globe

By 10 days earliest Danvers onion for northern gardens. Yellow, thin scales; mild, excellent flesh. See special prices start of Onions.

1440. Y. Globe Danvers

Our strain hardest, best keeping; early ripening Danvers. Sweet flavor, standard northern winter storage. Special prices start of Onions.

1450. Brigham Yellow Globe

New variety with outstanding storage qualities. Longest keeper; doesn't bruise. Excellent eating and cooking quality. High yielder. See special prices start of Onions.

ONIONS—Spanish

1470. Winter Sweet Spanish

Popular, most widely grown mild-flavored, sweet spanish for North. If started indoors, transplanted, grows to 3 lbs. Delicious slicer. Delivered Prices Oversized pkt. ($\frac{1}{8}$ oz.) 7c; 1 oz. 44c; $\frac{1}{4}$ lb. \$1.45; $\frac{1}{2}$ lb. \$2.75; 1 lb. \$4.98

ONIONS—Special

1475. Red Wethersfield

The oldest and best red onion. Large bulbs, small neck, heavy yielder. Red onions are famous keepers. See special prices start of Onions.

1480. Silverskin W. Port

Best pickling onion. When young, round pure white. When full grown, excellent for slicing. Not a winter keeper. Same prices as 1470 Riverside Spanish.

1485. Ebenezer (Yellow)

Best keeping onion ever developed. Standard variety for sets. Follow packet instructions; it's easy to grow your own sets at home. If grown like regular yellow onion gives large, solid, mild, perfect winter keepers. See prices start of Onions.

1490. Welsh Winter

Perennial. Hardy, produces delicious early green onions first thing in the spring. Doesn't form bulbs. Special prices start of Onions.

CHIVES

1495—Hardy perennial, all should grow. Produces fine, mildly pungent leaves. Flavors stews, soups and salads. Postpaid, oversize pkt. (1/16 oz.) 8c.

ONION SETS

Write for special quotation on large lots. Choicest — Lowest Cost — 1 lb. sows 30 ft.

Handpicked—Sound Dry.

SPECIAL DELIVERED PRICES

1 lb. 34c; 2 lbs. 66c; 5 lbs. \$1.59; 10 lbs. \$3.09.

1496—Yellow Onion Sets. First spring planting gives you earliest green onions, or table size in 6-8 weeks. If left in the ground all season will give you Jumbo Onions for winter storage. Special variety, firmest keeper of all. See special price above.

1497—Multipliers or Potato Onion Sets. Excellent quality for early green onions. Produces 10-15 bulbs in single cluster. Special prices above.

1498—Garlic Bulbs or Sets. Most pungent taste and strongest odor of all onions. A little goes a long way in flavoring soups, stews, salads, etc. Postpaid, $\frac{1}{2}$ lb. 39c; 1 lb. 69c.

PARSLEY

1500. Moss Curled

Adds tasty appetising garnish to meals. This is best parsley. Outstanding tender, densely curled, bright green leaves. Postpaid, oversize pkt. ($\frac{1}{8}$ oz.) 5c; oz. 17c.

1520. Lrg. Rooted Hamburg

Easily grown; produces delicious parsnip sized roots, used like celery for delicious and tasty flavoring in soups and stews. Postpaid, oversize pkt. ($\frac{1}{8}$ oz.) 5c.

PARSNIPS

$\frac{1}{2}$ oz. sows 100 ft. row; 2 to 3 lbs. per acre.

SPECIAL DELIVERED PRICES

Each variety, unless otherwise quoted: Oversize pkt. ($\frac{1}{4}$ oz.) 5c; 1 oz. 14c; $\frac{1}{4}$ lb. 43c; $\frac{1}{2}$ lb. 67c; 1 lb. and over \$1.19 lb.

1550. Hollow Crown Guernsey

A standby and favorite of most gardeners. Roots white and fine grained—Roots long, 10-12". Best for light land. See special prices start of Parsnips.

1570. Short Thick

Ideal on heavy and clay soils. Has short, easy to pull roots, 5-7" long. Tender and sweet. Outstanding for earliness. See special prices start of Parsnips.

1580. All American (New)

Outstanding in quality; few or no side roots. Very small core. Roots intermediate size, ideal for winter storage. See special prices start of Parsnips.

PEAS—Early

1 lb. to 150 ft. of row

SPECIAL DELIVERED PRICES

Each variety unless otherwise quoted:

Oversize pkt. 1 oz. **5c**; ¼ lb. **13c**; ½ lb. **21c**;
1 lb. **31c**; 5 lbs. **\$1-23**.

1610. Little Marvel

Well known favorite standard early pea. Short vine, compact pods, well filled, very high sugar content (13½%). See special prices above.

1615. Premier (60 Day)

Proved to be the finest new vegetable released in years. 3 days earlier than Little Marvel, it gets full pods of 8-10 peas even in the hottest weather. Combines earliest maturity with heavy yield and pod size. Flavor absolutely tops. Grow this for sure. See special prices above.

PEAS—Midseason

New—Don't pass up this advance.

1620. T & T Triumph

(New) This exclusive introduction is a real accomplishment—outstanding quality, top yield, vigorous vines—analysed 14½% sugar on our test plots, and holds it over longer periods. Cooks lively green, sweetest, tenderest ever. Postpaid Oversize pkt. (1 oz.) **7c**;
¼ lb. **16c**; ½ lb. **26c**; 1 lb. **47c**;
5 lbs. **\$1-88**.

1630. Homesteader (Lincoln)

Highest yielder, favorite for western plains, excellent quality, large pods vigorous—drought resistant vines. Recommended for freezing. This should be your standard—grow it. Special prices start of Peas.

1640. Laxtons Progress

Pea and pod size as large as the latest, but is ready a few days after Little Marvel. Runs 13% sugar, dwarf vines. See special prices start of Peas.

1650. Profusion

A home garden favorite—with drought resistant vines, combines real flavor with good size. See special prices start of Peas.

1660. Bonneville

28 inch vines. An outstanding quality variety for canning. High percentage double 3½" pods. See special prices start of Peas.

PEAS—Soup

1685. Arthur (New)

Enjoy delicious bowls of nourishing pea soup. Special recipe on packet. New Arthur is great improvement over Dashaway, etc. Has larger peas—bigger yield—better quality—early and more weather resistant. Postpaid, oversize pkt. (1 oz.) **4c**; 2 pkts. **7c**; ½ lb. **18c**; 1 lb. **29c**; 5 lbs. **\$1-15**.

Twelve

"I am writing to tell you how good those Sweet Arctic Peas are; I have never seen anything like them before. We tried many kinds of Peas. I'm sorry I didn't get more of it this year."
—Mrs. W. N. K., Grand Forks, B.C.

PEPPERS—Sweet

SPECIAL DELIVERED PRICES

Oversized pkt. (1½ oz.) **7c**; 1 oz. **63c**.

1720. King of the North

Popular sweet pepper. Heavy yielder of fleshy, walled, mild flavored blunt fruits. Best for northern gardens. Use in salads, stuffed and baked or in pickles. See special

PEPPERS—Hot

1750. Hamilton Market

Best hot pepper for northern gardens. Ripens with Earliana Tomato. Grow your own for pickles and flavoring. See special prices Start of Peppers.

SPECIAL DELIVERED PRICES

Each variety, unless otherwise quoted:

Oversize pkt. (¼ oz) **6c**; 1 oz. **23c**; ¼ lb. **83c**;
½ lb. **\$1-39**; 1 lb. and over **\$2-40** per lb.

1820. Early Cheyenne

New development—with all advantages of Early Cheyenne, plus compact 4' bushy vine. Excellent for small home garden. Plant, yields 3-4 excellent fruits each. See special prices start of Pumpkins.

1830. Sugar

Most productive pumpkin available—extra fine flavor and sweet—10" fruits keep well. Sweet for pies. Special prices start of Pumpkins.

1850. Winter Queen

Tremendous size—will store till Xmas. Flesh bright orange, fine textured and sweet. Best of the large pumpkins. See special prices start of Pumpkins.

RADISHES

1 oz. sows 100 ft. of row.

SPECIAL DELIVERED PRICES

Each variety, unless otherwise quoted.

Oversize pkt. ($\frac{1}{4}$ oz.) **5c**; 1 oz. **12c**; $\frac{1}{4}$ lb. **29c**;
 $\frac{1}{2}$ lb. **47c**; 1 lb. and over **79c** per lb.

1900. French Breakfast

Favorite and best, early, deep, spring or forcing radish. Bright scarlet, white tip. Sweet and excellent quality. Use early. See special prices above.

1910. White Icicle

Favorite summer radish; long white roots; stands heat better than most round varieties. When $\frac{1}{2}$ " across flavor best, mild and crisp. See special prices start of Radishes.

1930. Cherry Belle (New)

Best Radish on T & T Test Plots.

Stands heat best. Sweet and Early, it does not become hot and pithy, even in hot, dry weather. Round, fiery scarlet like a cherry—excellent for repeated plantings. Post-paid, oversize pkt. ($\frac{1}{4}$ oz.) **9c** Packets only. Scarce. No bulk seed.

1940. Cavalier (New)

Outstanding quality for winter or spring forcing. Roots bright red, tops short. Excellent sweet flavor. Seed scarce. Delivered, oversize pkt. ($\frac{1}{4}$ oz.) **6c**; 1 oz. **14c**; $\frac{1}{4}$ lb. **36c**; $\frac{1}{2}$ lb. **56c**; 1 lb. and over **96c** per lb.

1950. Comet (New)

Excellent all-round summer radish. Outstanding ability to remain solid, even in hot weather. Bright red; flesh solid, quality excellent. Seed scarce. Use prices for Cavalier (No. 1940).

1970. Sparkler

Excellent bi-color red and white roots. Market garden favorite for early use. Flesh sweet and pleasant. See special prices start of Radishes.

RADISHES—Winter

1990. Black Spanish

Spicy, pungent winter radish; store like carrots in cool, damp moss. Black skin; white, crisp flesh. See special prices start of Radishes.

1995. China Rose

Late fall or early winter radish. Early frosts improve spicy flavor. Scarlet skin; sweet, crispy, white flesh. See special prices start of Radishes.

"Your garden seeds have produced the best looking garden in this neighborhood."—C. W. B., Port Kells, B.C.

RHUBARB

2000. Rhubarb

Red and Mixed Hybrids. Easily Grown
Seed of these early, high sugar and red hybrids will surprise you in their productiveness. Bred for low acid. Delivered, oversize pkt. **7c**.

SALSIFY

2020. Mammoth Sandwich Islands

Excellent winter crop. This is the earliest salsify or oyster plant. Yields large firm roots for winter storage. Flavor suggestive of fried oysters. Post-paid, pkt. ($\frac{1}{8}$ oz.) **7c**; 1 oz. **26c**.

SPINACH

1 oz. seeds 100 ft. of drill.

SPECIAL DELIVERED PRICES

Each variety, unless otherwise quoted:

Oversize pkt. ($\frac{1}{4}$ oz.) **4c**; 1 oz. **13c**; $\frac{1}{4}$ lb. **36c**;
 $\frac{1}{2}$ lb. **49c**; 1 lb. and over **79c**.

2050. Long Standing Bloomsdale

Leaves extremely curled, dark green and high quality. Our strain stands up and doesn't go to seed like the older Bloomsdale types. Special prices above.

2060. King of Denmark.

Quality is tops; large, rich green, comparatively smooth, dense leaves. Stands summer heat surprisingly well. Special prices start of Spinach.

2070. Nobel

Outstanding variety, stands extreme heat of western plains. Less seed bolting than any other variety. Our strain has thick, smooth, dark green leaves. Quality excellent. See special prices start of Spinach.

SQUASH—Summer

SPECIAL DELIVERED PRICES

Each variety, unless otherwise quoted:

Oversize pkt. ($\frac{1}{4}$ oz.) **6c**; 1 oz. **23c**; $\frac{1}{4}$ lb. **83c**;
 $\frac{1}{2}$ lb. **\$1.39**; 1 lb. and over **\$2.40**.

2100. Black Bush Zucchini

Standard summer squash. Compact bush, black skin fruits are best used 4-5" long. Sliced and prepared like asparagus. Quality excellent. Special prices above.

SQUASH—Fall

2120. Acorn (Table Queen)

Our strain. Vigorous vines. Heavy yielder, 5" fruits; ideal when cut in two, baked for two servings. Well flavored, excellent texture; ideal sweet potato substitute. Stores well. See special prices start of Squash.

2125. Caserta

1949 Gold Medal winner. Exceptional yielding bush type. Best summer squash in quality and yield. May be sliced like a cuke as needed. A dandy. Postpaid, oversize pkt. (1/4 oz.) **14c.** Seed scarce—packets only—no bulk.

2130. Buttercup

Introduced by Dr. Yeager at Nth. Dakota. Best home garden squash for the market. Very thick, fine orange flesh. Dry, mealy; excellent flavor. First class keeper. Postpaid oversize pkt. 1/4 oz. **7c;** 1 oz. **27c;** 1/4 lb. **98c.**

2140. Green Hubbard

Standard for excellence and flavor; the flesh golden orange, tender and free from fibre. Large fruits on vigorous vines. Reliable winter keeper. See special prices start of Squash.

VEGETABLE MARROW

2220. White Bush (New)

Short, bushy growth; ideal for small garden. Heavy yielder of tender white fruits. Small 5" fruits, ready to use when Bush

Beans usable. See special prices start of Squash.

2230. Vegetable Spaghetti

A real treat—this is not a freak but a delicious vegetable. Can be used when small like vegetable marrow, or can be baked in the shell when mature for the delicious vegetable-like spaghetti exclusive taste. Delivered, oversize pkt. **6c.**

SUNFLOWERS

2275. Advance Hybrid F2 (New)

New Sunflower hybrid developed at Canadian Government Plant Breeding Lab at Saskatoon—further improved at Experimental Station, Morden, Man. Grows 4 to 5 feet tall; highest oil producing Sunflower; exceptionally high yielding and early maturing. Meats very tasty—oil excellent for cooking purposes. Postpaid, oversize pkt. (1 oz.) **5c;** 1/4 lb. **14c;** 1/2 lb. **24c;** 1 lb. **45c.**

Fourteen

Ripe, Farthest North Tomatoes on shore of Arctic Ocean at Hudson's Bay Co. Fort Tuktuk, parallel with Magnetic North pole; 2,000 miles north of U.S. Border.

TOMATOES—Bush

Early bush (non-staking) tomatoes are the outstanding advance in vegetables of the last 10 years.

Ripening 2-5 weeks earlier than staking sorts, these compact, tremendous yielders make the job of staking and suckering seem old fashioned and needless. Now that the extreme earliest of Farthest North has been combined with Earliana size as in Bounty, these are the tomatoes for the northern garden.

SPECIAL DELIVERED PRICE

Each variety unless otherwise quoted.

Oversize pkts. (1/16 oz.) **6c;** 3 pkts. **15c;** 1/2 oz. **33c;** 1 oz. **58c;** 2 oz. **98c;** 1/4 lb. **\$1.69.**

2310. Extra Slicer (Star)

Deeper fruits give you an extra slice. Here with our breeding experiments we have combined extreme earliness and bush non-staking growth, with large deep extra slicer fruits. Here's choice seed saved from the deepest fruiterers on our experimental plots. It's scarce — it's good. See special prices start of Tomatoes.

2320. Farthest North

Earliest tomato on the seed market. Introduced by Dr. Yeager, when at North Dakota. Fruits often ripen 4 to 5 weeks after transplanting. Seeded outdoors after potatoes, ripens with transplanted tomatoes. Bushy plants loaded with 100's of golf-ball sized fruits. Excellent flavor, for table or juicing. **Spec'l prices start Tomatoes.**

2335. Early Chatham

Especially selected early strain of the favorite Early Chatham. Bred and selected here in Manitoba for conditions in the north. This bush type is very compact and the fruits are even larger than the regular Early Chatham. Our plant breeders selected this early strain out of the regular Early Chatham three years ago and have been increasing it in an isolated area and saving the seed with great care. Although our seed supply is still very small we are releasing it in packets only because it has caused so much interest in our test plots. Seed scarce. One (1) packet to a customer. Postpaid pkt. (1/16 oz.) **11c.**

2340. Early Chatham

Compact; tremendous yielder; 2 1/2" lively red, deep bodied fruits. Ripens 10 days after Farthest North. Tops for the garden in northern districts. Makes best juice of the Bush types. See special prices start of Tomatoes.

TOMATOES—Bush—Cont'd

2360. Bounty Select Strain

Only large fruited $3\frac{1}{2}$ " bush tomato available. Vigorous stalky plants. Heavy cropper. Ripens bright red fruits a week after Early Chatham. This is good, it will please and amaze and save you work. See special prices start of Tomatoes.

2485. Morden Yellow (New)

New introduction from Charlie Walkoff, Morden Exp. Station. Early bush plant. Large, smooth, yellow fruit. Real advance. Best yellow for the north. Seed scarce. Postpaid pkt. 8c.

TOMATOES—Staking

2400. Earliana

Earliest of the staking types. Stands drought well. Fruits smooth, deeply colored, well flavored. Excellent for the small garden where pruning and staking can be done. Special prices start of Tomatoes.

2420. Stokesdale "A"

Choice strain of an extremely uniform, smooth fruited, medium sized heavy cropper. Needs sheltered warm locations for Northern gardens. Fruit deep red, exceptionally well flavored. Market garden favorite. See special prices start of Tomatoes.

TURNIPS—Summer

Use only when small ($2\frac{1}{2}$ " across) for the spring and early summer table.

1 oz. sows 100 ft. of row.

SPECIAL DELIVERED PRICES

Each variety, unless otherwise quoted:

Oversize pkt. ($\frac{1}{4}$ oz.) 5c; 1 oz. 13c; $\frac{1}{4}$ lb. 29c; $\frac{1}{2}$ lb. 49c; 1 lb. and over, 89c per lb.

2500. Purple Top

Earliest turnip for northern areas—rapid grower. Crisp, white flesh; pleasing flavor. See special prices above.

2510. Golden Ball

Finest yellow fleshed type. Roots round, golden; flesh sweet-crisp and fine textured. Heavy yielder. Ready a week after No. 2500. See special prices above.

TURNIPS—Rutabaga

The rutabaga or swedes are the large fall and winter storage types. Store like potatoes.

2520. Laurentian

The best heavy yielding rutabaga. Market gardeners' favorite. Uniform—excellent quality—stores well. Postpaid, oversize pkt. ($\frac{1}{4}$ oz.) 6c; 1 oz. 16c; $\frac{1}{4}$ lb. 35c; $\frac{1}{2}$ lb. 59c; 1 lb. \$1.09.

2540. Canadian Gem

Earliest and best rutabaga for northern districts. Roots round to oval; sweet and pleasantly flavored. Harvest in late fall; excellent keeper. See special prices start of Turnips.

VEGETABLE

1. 20 Oversize Pkts.—\$1.00

CALIFORNIA POPPY (See No. 5460)

"I planted the same number of packets of seed I usually seed for our family, but from the T & T seeds I also furnished a camp of 80 people with beautiful lettuce and other vegetables so that they had an abundance for some time; also supplied merchants in Wetaskiwin with the lettuce. These men stated they had never handled such huge, hard, sweet, juicy lettuce in all their experience with Canadian or U.S. produce. Some heads weighed 7 pounds with coarse leaves trimmed off. I found this true with other vegetables too. I had done nothing different to the garden than when using other companies' seeds; I therefore know it is the new and marvellous seed which I do not wish to be without again. Thanks for your great generosity."—Mrs. R. R. B., Gwynne, Alta.

"I can't tell you how pleased I am with T & T seeds. They seem to have more strength than ordinary seeds. My husband is a laborer and we have to spend our money wisely, and I think buying T & T seeds is wise."—Mrs. M. H., Mayfield, Man.

A Flower Garden helps healthy children develop healthy minds. Watching things grow and helping Mother and Dad, they learn the principles of good citizenship.

POTATO EYES

T & T EYES ARE LARGEST—HEALTHIEST—BIGGEST YIELDERS

RENEW AND IMPROVE YOUR POTATOES WITH T & T EYES

T & T Eyes are the cheapest, easiest way to get into disease-free stocks of the best.

INCREASE YOUR POTATO YIELDS

Don't re-plant table stock, its usually full of disease (softrots and hidden viruses). New varieties often produce over twice the yield of old run-out varieties.

SIMPLE—SURE—EASY

T & T Oversize Eyes are easy to grow. Plant and handle like ordinary potatoes. Complete planting instructions with each order.

In Canada Certified Eyes have done more to improve the quality of Home Grown Potatoes than any other factor.

T & T Eyes are center cut with plenty of feeder flesh. Yield as heavy as potato pieces.

SPECIAL DELIVERED PRICES

Delivered to you at planting time.

Order with your seed on O. Form.

Ea. var. unless otherwise quoted.

25 Eyes \$.39 200 Eyes \$ 2.49

50 Eyes .69 500 Eyes 5.29

100 Eyes 1.29 1000 Eyes 9.90

START WITH CERTIFIED SEED FOR VERY LITTLE MONEY

All **T & T Eyes** are cut from stocks grown by ourselves under Northern isolated conditions, in the Red River Valley. These are not odd lots picked up in the Eastern or Southern warm growing areas.

EARLY—TESTED—PROVEN VARIETIES

Here's a complete list of the best high yielding varieties, for the Northwest. Pick out your favorites for your soil and district.

NEW POTATO EYES AT A SAVING

Purchase reasonably priced **T&T Hand Cut No. 1 Eyes**. Keep your potato patch in good shape.

Increase yields 20% with DDT.

9800. Canus (New)

New origination from the Lacombe, Alberta Experimental Farm. Bred for Northern long day conditions, it promises to be our outstanding main crop potato. Very broad deep green leaves, heavy foliage and root growth. Its extreme vigor assures highest yields and drought resistance. Tuber shape like Cobblers, but eyes are much shallower. Produces higher percentage of No. 1 tubers per hill. Reports from the tens of thousands of eyes we shipped last season prove its ability to outperform the old standard varieties. Stock up on Canus now—it's scarce. **Postpaid Special—25 eyes 49c; 50 eyes 89c; 100 eyes \$1.69.**

Kennebec

New U.S.D.A. seedling—outstanding yielder. Oval white with very shallow eyes. Vigorous grower. **Postpaid Special—25 eyes 49c; 50 eyes 89c; 100 eyes \$1.69.**

9810. Warba

Earliest potato grown. Developed by Dr. Krantz, Univ. of Minn. Sure cropper in short season dry districts. Best farm garden variety, always matures a crop. White skin. Excellent flavor. Good keeper.

9820. Irish Cobbler

Old favorite for home and market garden. Top yielder on all soil types. Quality always dependable. Mealy fine flavored, excellent for baking. White skin and flesh. Light purple flowers.

9802. Dakota Chief

Drought resistance is what's making this brilliant red skinned "spout" of Pontiac catch on like wildfire. From origination of Prof. E. Wheeler, Michigan Agriculture College, it has the strongest vine and root growth of any potato; it really "digs" for the moisture. Excellent quality. It's red skinned but shallower eyed than Triumphs. Its tough skin at digging time make it bruise resistant and tops for storage. Scarce. Only 25 eyes to a customer. **Postpaid Special—25 eyes 54c; 50 eyes \$1.04.**

9804. Columbia Russet (New)

This outstanding variety was recently introduced from British Columbia. It has a heavy russet skin which makes it resistant to bruising and scab, plus the wonderful baking quality and higher food value of the Russets. 10 days earlier than Netted Gems, it's a much heavier yielder. One customer reported it out-yielded Ohio 4 to 1. Truly a Canadian First. **Postpaid Special—25 eyes 54c; 50 eyes \$1.04; 100 eyes \$1.98.**

9830. Early Ohio

If this is a favorite of yours here is some new true, disease-free stock. In recent years, newer, smoother, more disease-resistant types are replacing this old favorite. Oval pink tubers are table favorites.

9840. Bliss Triumph

This earliest of the main croppers is gaining more friends in the Northwest every year. Outstanding yields of red-skinned, good quality, oval tubers; excellent keeper, smooth, consistently uniform. Distinctive flavor.

Rock gardens such as this are rapidly gaining popularity in the North. Make a corner of your garden a permanent showplace.

Gladiolus by the acre for **T & T**. **T & T** Experts select and list the world-beater varieties to be First and Finest in your garden. Try some for sure.

Mr. Verscheure, Winnipeg, with **T & T** Early Bounty. His yield 10 lbs. ripe tomatoes per plant. Total crop 11,000 lbs. ripe fruit on $\frac{1}{4}$ acre above.

STRAWBERRIES

Postpaid in Early Spring

T & T Strawberries & Raspberries are Northern Grown, Packed and Shipped by Recognized Experts. Hundreds of thousands of **T & T** Nursery Grown, Hardy Plants and Best Varieties assure success. Mark season to ship on enclosed Nursery Order Form.

EVERBEARING WAYZATA (N.D. Certified).—The finest everbearing strawberry so far created. Its fruit always commands top price and has no equal in deliciousness and flavor. Fruit most attractive, being large, beautifully colored both inside and out. It's an everbearer and fruits all summer. See special Nursery Order Form. **Special Delivered Price—Bundles of 25, \$1.89; 50 for \$3.59.**

9250. Latham

An old stand-by. Medium hardy. Large fruit of excellent flavor. Heavy cropper. The main crop berry in many sections. Start over again with our clean stock. Express Collect—Bundles of 25, **\$1.89.**

GRASS SEED

Sow 1 lb. to 200-300 sq. ft. for a successful new lawn.

T & T PLUMP HEAVY NEW CROP SEED GIVES A RICH LASTING LAWN AT A SAVING

All **T & T** Grass Seed is extra heavy. Thoroughly re-cleaned, of highest quality, tested, and graded for Control Certificate Test Nos.

9270. T & T City Club

This special blend, tested and proven to make best lawn under Northern conditions. Blended of fine bladed, hardy, quick, easily grown strains of finest grasses. In spite of high grass seed costs this is a quality mixture. Does not contain any of the cheap coarse grasses such as Brome or Crested Wheat. Postpaid prices— $\frac{1}{2}$ lb. **52c**; 1 lb. and over **98c** per lb.

9275. T & T City Club

with **White Dutch Clover**. City Club Blend with 5% White Dutch Clover. Prices same as 9270.
